Soft skills: Teamwork, Quality control, Problem-Solving skills, Communication skills, Train staff, Team performance monitoring

EXPERIENCE

Frontend Engineer

Light Vision Inc   **December 2022 - Present, Seoul, South Korea**

- Designed and Implemented a prostate cancer **questionnaire and risk determination** website within a short amount of time using React and Tailwind CSS, leading to **substantial profit(35mln~)** gains through a key partnership
- Extended **AI Parking app** capabilities through a new feature page developed using Flutter. Seamlessly integrated this functionality into the existing system, enhancing the user experience and **customer escalation by 15%** providing a user-friendly interface for the client parking management.
- Developed **Admin page** from scratch using React, Bootstrap, @mui Material, Highcharts to manage online video conferencing platform
- Built a **video re-identification** website swiftly with an intuitive, user-centric design using HTML, CSS, Javascript and Bootstrap.
- Showcased expertise in creating open-source **video conference platform**, using leading-edge tech and best practices to ensure an exceptional user experience for the visually impaired.

Web Developer

Contract   **April 2022 - December 2022, Seoul, South Korea**

- Developed an intuitive **online library** website using React, Firebase for the Institute of Retraining of Pedagogic Personnel, improving user experience and mission alignment by **reducing load time by 66%** compared to the original.

Teacher Assistant

Samarkand Economics and Service Vocational College | IT Department   **October 2015 - May 2016, Samarkand, Uzbekistan**

- Collaborated with professors to deliver **instructions in C and C++** programming, providing hands-on assistance and guidance to students
- Conducted code reviews, provided feedback, and helped students improve their coding skills.
